

Local service. National leader.

Group Dental Plans for 5+ employees

Local service backed by the nation's largest dental benefits system.

When it comes to choosing a dental plan, look to the experts. Delta Dental of Nebraska, located in Omaha, has 25 years of experience working with the local business community. We're an independently operated affiliate of Delta Dental Plans Association—the nation's leading dental benefits system.

More employers and brokers nationwide choose Delta Dental than any other dental benefits provider. In fact, Delta Dental serves more than one-fourth of Americans with dental insurance—that's 54 million people in more than 89,000 groups.

We attribute our success to the fact that we offer a wide range of affordable plans for groups large and small, access to the state's and nation's largest dental networks, and consistently superior service.

Our plans are expertly administered through a partnership with Delta Dental of Minnesota—an industry leader that serves **3.5 million members** in nearly **8,000** groups ranging from small businesses to Fortune 500 companies.

The perfect dental plan for any group

No matter what size your group or budget, there's a Delta Dental plan just right for you. For groups of more than 100 employees, we customize plans and offer both fully insured (risk) and self-funded (administrative services only) dental plans.

We offer pooled indemnity and PPO plans on a voluntary basis (groups of 5+) or employer-paid basis (groups of 5-199). Employers may choose to pay all, some, or none of their employees' premiums. New and small business owners especially value this flexibility as they work to control costs.

Delta Dental of Nebraska's attentive, knowledgeable sales staff will work closely with you to help you select or custom design the ideal plan for your company.

The largest networks in the state—and the nation

Tremendous access

When you choose a Delta Dental plan, you give your employees access to the largest dental networks in the nation. More than three out of four dentists in the U.S. participate in our networks. Delta Dental members may see any network dentist in the U.S. and receive equal coverage—especially attractive to multi-state employers.

Here's a look at our impressive networks:

The Delta Dental Premier® network offers 198,000 dentist office locations nationwide and 1,030 in Nebraska.

The Delta Dental PPOSM network offers 119,000 dentist office locations nationwide.

With networks this large, chances are your employees are already seeing a Delta Dental dentist.

Savings and convenience

Because of the substantial number of patients our plans deliver, we're able to negotiate rates that are often significantly lower than dentists' usual fees. This results in lower claims for you and decreased out-of-pocket costs for your employees. Most of our plans also cover non-network services, but members incur greater out-of-pocket costs.

Another reason to stay in-network is that participating dentists bill us, and we pay them directly, saving members the hassle of claims paperwork.

Stability

Nearly as important as network size is stability. When it comes to health care, we all value receiving consistent care from a trusted provider. That's why Delta Dental works so diligently to not only grow but maintain our networks. Last year, for example, the dentist turnover rate in our Nebraska Delta Dental Premier network was less than 2%.

Service that's second to none

Whether it's designing a plan, enrolling employees, confirming benefits, submitting claims, or checking on a bill—you get only the finest service. There's just one number to call with all your customer service questions—**(toll free) 866-318-9449**.

Here's a historical snapshot of our services:

- More than **99%** of claims are processed in 14 calendar days or less.
- Claims are processed with a **99%** accuracy rate.
- Calls are typically answered within **15 seconds**.

Financial stability you can count on

As part of the Delta Dental of Minnesota group, Delta Dental of Nebraska is one of the most highly rated dental plan providers in the nation with an A (Excellent) rating from A.M. Best.

A strong commitment to community involvement

As your neighbor, it's important to us to play an active role in promoting oral health in the community. We have established dental scholarships at two of the largest local universities. We also sponsor charity events that raise funds to provide dental care for economically disadvantaged people in the state as well as lend strong support to the United Way by partnering with our clients on various charity events.

**Put our expertise
and experience to
work for you.**

**Call our Omaha sales team

toll free (800) 736-0710.**

**We look forward to making you
a satisfied customer, too.**

Who needs a dental plan?

There are lots of good reasons to offer your employees a dental plan. Not only is it good for your employees' health, it's good for your bottom line. A Delta Dental plan can help you:

Keep your employees healthy.

There's a strong connection between good oral health and good overall health. Because of that, our dental plans encourage regular, thorough preventive care.

Increase your employees' productivity.

Good oral health increases employee productivity. Did you know that more than 20 million workdays are lost each year in the U.S. due to oral health problems? Better oral health keeps employees on the job.

Protect your organization's bottom line.

Preventive dental care, early detection, and proper treatment save the U.S. \$4 billion annually.

Attract and retain talented employees.

Talented employees are attracted to companies that offer good benefits—including a dental plan. Dental insurance is the second most requested employee benefit after medical insurance.
